Objective

Soon to be a Computer Science Graduate with two years of web development experience seeking a full-time position with a strong collaborative team and a work environment that will enhance my skill set.

Education

Bachelor of Science, Computer Science
California State University Los Angeles

Expected Grad 05/2022
GPA 2.9

WORK EXPERIENCE

Association for Computing Machinery

05/2021 – Present

Role – Webmaster

- Revamped and developed on existing pages to enhance the design layout
- Provided training to 2 beginner-level developers in various web functions
- Reviewed multiple existing web pages to locate and fix improper methods to implement enhancements to improve design and functionality

East Los Angeles Community College

02/2018 – 07/2019

Role – Program Assistant

- ELAC representative that would travel off-site as needed
- Assisted anyone with enrollment or registration needs
- Helped any instructors or supervisors for any specific ELAC events that were being held

Project Experience

Personal Website – HTML, CSS, JavaScript, Bootstrap, Visual Studio Code

02/2019 – Present

- Utilized NameCheap for domain ownership
- Revamped web pages using CSS and Bootstrap to enhance my website
- Led and managed my self-development to increase productivity and to keep the website updated

Jasel's Portfolio – HTML, CSS, Bootstrap

01/2020 – 03/2020

- Implementing NameCheap to host the website and its functionalities
- Collaborated with owner to understand demands and layout to implement client's needs
- Provided web page quickly due to client's demands

Healthy Helpers – Java, JavaFX

04/2019 – 05/2019

- Worked with two other undergraduates to complete an application within an extremely short deadline
- Utilized Inheritance, Polymorphism, Abstraction, and Encapsulation to complete the application
- Enforced software engineering principles to create official documentation and a functional application

Leadership Experience

Board Leader - Associated for Computer Machinery (ACM)

05/2021 – Present

Role – Webmaster

- Managed a team to consistently meet deadlines and pushed quality work
- Improved most existing web pages and revamped old designs to improve the visual layout
- Collaborated with other board members constantly to ensure all our work is consistent and correct

ACM Club's 'About Us' Web Page – React, CSS, Node.js, Bootstrap, JavaScript

03/2020 – Present

Role – Web Officer for Association for Computer Machinery at Cal State La

- Utilized Figma to professionally design the web page
- Learned React and Bootstrap in a timely manner to meet deadlines
- Collaborated often with my team to discuss important matters on the look of the website

Relevant Courses

Computer Science 3112, 3337

01/2020 – 5/2020

- Analysis of Algorithms, Software Engineering

Computer Science 3220, 4220

01/2020 – 5/2020

- Web and Internet Programming, Current Trends in Web Design

Computer Science 2011, 2012, 2013

08/2017 – 12/2019

- Introduction to Programming, Object-oriented Programming, Data Structures
